The last will and testament of Mr. Erasmus Dunn was probated in the County Court last Monday morning.

E. DUNN WILL

The instrument is dated January 6th, 1906 and was witnessed by R. E. McRoberts and H. Clay Hamilton of this city.

In the first paragraph he directs that all his just debts and funeral expenses be paid.

He then bequeaths to his wife, Mary E. Dunn, all his household and kitchen furniture and such farming implements as she desires, all the poultry, two cows and calves, of her own selection, 10 head of hogs and sufficient provender to support same for at least one year, and in addition leaves her during her natural life, 200 acres of land including residence and all outbuildings, to be cut off of the East side of the farm and known as the Bettis tract. After her death he bequeaths said 200 acres to "Anne E. Watkins and her children, now in existence or that may hereafter be born to her."

In the third paragraph he directs his executor to put up a monument on the lot where his father, mother, brothers and sisters are buried in the Lancaster cemetery, to cost not less than \$1,500 and inscribe on said monument "that same was erected by E. Dunn, Jr."

He also directs that his executor have a monument erected to cost from \$2,000 to \$2,500 put up on deceased lot in the Lancaster ceme tery where his wife and two children are buried.

The will states if there is not sufficient personal property to pay all debts and funeral expenses and erect the monuments, the executor is directed to sell sufficient amount of that forty acres or more be cut off from the Bettis tract for this pur-

In paragraph five all the residue of his estate both real and personal, he gives and bequeaths to Anne E. Watkins and her children, those now living or that may be hereafter born

In the sixth and last paragraph he appoints R. H. Tomlinson his executor to execute and fully carry out the provisions of the will.

The estate of Mr. Dunn is considered by some to be worth nearly \$150,000, consisting of about 650 acres of land lying immediately on each side of the Danville and Lancaster pike and about two miles from Lancaster.

Mrs. Anne E. Watkins was the vife of William Watkins and died about seven years ago leaving five "FLYING children, namely; Guy, Irvin, James I., William D. and Adolph. boys being the sole beneficiaries of the estate. Their mother was a great neice of the deceased and lived To Be In Lancaster with him during her young girlhood

The total amount raised in the county was \$481.03.

### **BUMPER CROWD**

### Here Last Monday.

Decidedly the largest crowd seen here at any previous Court Day was on hand last Monday. The town was literally alive with mules and men. The public square would not begin to hold the automobiles and they were 'parked" out every street to the intersection of the first crossing. The change in the hour, brought many to town by eight o'clock.

Good mules were in great demand but not many on the market and only a few of this class sold. There was no demand for the inferior kind. Hundreds of mule colts were here and only a few of these sold as the demand was light.

Politics was the talk of the day and many came to hear Governor Black who was billed to speak, was detained at Frankfort on account of important business that he

He was well represented however by Hon. James Garnett, of Louis ville, who spoke for nearly two hours to an audience that filled the court house to overflowing. His speech was loudly applauded many times and pronounced by many as the best they had heard here in any months

Lancaster Market Should Be The Best In The State.

Warehouse About Completed.

Every indication points to one of he finest tobacco crops ever raised n Garrard county and from the encouragement received by the directors and stock-holders of the Garrard Tobacco Warehouse from the growers of this and adjoining counties, there seems no reason why the local market here should not be the banner market of the state.

Garrard county has long been known as the best tobacco county in the state, the weed from this county always bringing the top prices on every market on which it has been sold, and with the present fine crop raised this year and being sold over the local brakes, it is not unreasonable to suppose that our market should not top any in the state.

Last year the farmers of this county lost something like \$100,000 by selling to "pinhookers," taking their tobacco to the markets of Lexington, Danville and Richmond and seeing their crop sold for double what they were paid and in some instances trebled. The farmers and tenants are getting wise now and they don't propose to be caught "napping" again.

In ten days the Garrard Tobacco Warehouse will be completed and when done will be the best one in the state. It is just about the size of the "Public Square" in Lancaster and 125 wagons can easily be accommodated within its doors. Every pound sold can be prized in the huge building and loaded into the cars on the switch owned by the company, and which accommodates nineteen cars.

Plenty Of Buyers.

Messrs L. G. Davidson, John M.
Farra and R. L. Burton have just returned from North Carolina and Vicginia and report tobacco on these markets bringing fabulous prices, bringing home samples that brought more than one dollar a pound.

These gentlemen while there suc ceeded in contracting with several buyers, among them, J. P. Taylor and Company, P. Lorillard and Company, R. J. Reynolds Company, American Tobacco Company, Liggett and Myers Tobacco Company, Buckley and Saunders, W. R. Hampton Com-pany and G. O. Tuck Tobacco Co.

Some competitive propaganda has been going over the country, to the effect that the Garrard Warehouse Company would not be able to secure the buyers. This should knock that into a "cocked hat", for all of the above will be here prizing rooms can be arranged for

the R. J. Reynolds Tobacco Company he told them that Garrard County to bacco was used exclusively in their "Prince Albert" smoking tobacco and that it would give him great pleasure in sending one of his best buyers to this market. Now that's the word with the "bark" on it and goes to show that Garrard county known all over the country. Can you doubt for a minute that the buyers will not be on the floors of the Garrard Tobacco Warehouse?

# Elect Gov. Black Tuesday

Kentuckians! The issues are clear! On its record in State and Nation, a united Democracy asks you to answer these questions by your votes on Tuesday, November 4th.

Will a Ringing Message of Cheer go to that sick chamber in Washington, or will Kentucky go under the cloud of support of those men who are seeking to discredit America's Greatest Statesman, purely for partisan Reasons?

Will Kentucky go forward to four years of progress under the able leadership of Governor James D. Black, or will it become a pawn in the hands of A. T. Hert, whose sole use for our State is the furtherance of personal ambition?

### Ballard Self-Confessed Profiteer

Thurston Ballard, the multi-millionaire president of Ballard Mills, of Louisville, was the man chosen by A. T. Hert for his hand-picked Republican ticket as the candidate for Lieutenant Governor. A close personal and business friend of Mr. Hert's, with ample funds at his disposal for campaign purposes, it is easy to see why he was chosen for as the nominee for this office.

Admits Selling His Flour at \$1.10 Less in New Orleans Than In His Own State.

This is the man who is running with Mouth-Piece Morrow at the head of the Republican ticket—the man who, by his own admission, pleaded guilty to being a profiteer. Not satisfied with profiteering, the defense he made of his action is a slap at the people of Kentucky. The reason he gave is that he sells his flour for cash in New Orleans—as though Kentuckians could not pay cash!

### Black Fights For the League of Nations **But Morrow Only Equivocates!**

The Republican nominee is already listening to "His Master's Voice." To Gov. Black's repeated challenges as to his stand for or against the League of Nations, he has given only evasive answers. He dare not face the issue fairly and squarely.

Yet is there anyone who doubts that the election of Morrow will be hailed by Republicans as a victory in their fight in opposition to the League of Nations.

Elect Morrow governor and they will come out from under cover and in glaring headlines announce that Woodrow Wilson's stand for civilization has been repudiated.

By their evasion they stand against it-they make it an issue.

Kentucky gave nearly three thousand of her sons to make the world safe for democracy. Will their lives have been given in vain? Will Kentucky continue to uphold the hands of Woodrow Wilson, to whom the peoples of the world are looking for leadership?

### Morrow's Todays Are All Yesterdays

Seemingly, he does not know that it is Gov. Black who is his opponent in the present race. His entire campaign has been one of "what he would have done."

He has said he would have kicked out the School Book Commission, though even he must have known that that would have made him a lawbreaker. The question naturally arises-would he, as governor, care for the laws of the state?

He has criticized the new tax law, though he knows that he gave it his endorsement and that it bears the name of a fellow Republican. Not he—but Gov. Black, instead-has made constructive criticism of this law.

He has continually talked of "cleaning house at Frankfort" and charged the maintenance of useless offices-yet to repeated demands he has not dared name one charge against any man nor specifically state one

### Far Out of Step With Kentucky's Progress

Morrow has gone far back to Augustus E. Willson's administration for comparison of expenditures. By do-ing this, he has shown a lamentable lack of knowledge of the costs of today and of the yesterday in which he has been living.

He has shown, too, a surprising lack of knowledge of the onward sweep of progress that Kentucky has been

Seemingly he does not know that since Gov. Willon's term a Good Roads Department has been established and it has built 1,740 miles of good roads, at a cost to the state of \$3,040,911.00.

Seemingly he does not know that Kentucky now has 13,000 rural schools while under the Willson administra-tion there were but 8,000. Is it any wonder \$2,800,000 more has been spent for educational purposes?

### Not Too Late, Judge!

Judge Bethurum, it is not too late! You publicly stated that you would withdraw the Republican nominee could it be shown that he had a hand in the tobacco cases of Grant County.

At the same time your candidate was admitting that he wrote a letter opposing the pardon of the five farmers convicted. You need not even take his word for it. Attorney General Palmer will tell you, as he has told all of Kentucky in a published letter, that the files in his office at Washington show that Morrow did oppose the pardon that was rightfully granted these men.

Make good your word. Your candidate's guilt is proven. It is up to you.

### Shall A. T. Hert Rule Kentucky?

Hark to What Chairman Rhea Said of A. T. Hert, the Republican "Boss" of Louisville, in His Speech at the Opening of the Democratic State Campaign at Hopkinsville.

"Shall A. T. Hert, lately of Indiana, now of Kentucky, be allowed to name the members of the State Tax Commission? Shall he and his millions dominate the politics of this state for the next four years? This is the most vital issue facing the people of the State today.

"Shall Mr. Hert, with the aid of Thurston Ballard, the profiteer, and the other millionaire candidates on the Republican ticket, be allowed to take over the State government outright? Behind Mr. Moring voice is the cunning hand of Hert. Morrow is the mere mouth-piece for Hert. The voice is that of Jacob, but the hand that of Esau. Shall Hert build a bridge from the Louisville City Hall to the State Capitol? Shall the Louisville Republican machine ex-

# FRIDAY, NOVEMBER 7

10:30 A. M. RAIN OR SHINE!

Here is a proposition that will appeal to the buyer who intends making THE LAND PAY FOR ITSELF or the buyer who is looking for a big percentage on his investment, without taking into consideration any increase in value which may accrue. This magnificent farm is only 3 miles from Bryantsville, 10 miles from Nicholasville, and 12 miles from Lancaster and Danville. The land is unusually productive. 150 ACRES IN BLUE GRASS, 200 ACRES SOWED IN WHEAT AND RYE, 4 TOBACCO BARNS, 5 SMALL HOUSES, 1 GOOD STOCK BARN AND IS WELL WATERED THROUGHOUT.

It lies about 1 mile from the Lexington and Danville turnpike, on a new turnpike, and what we wish to mainly impress on you is that with land values as high as they are everywhere, and going higher every time the sun sets, here is an owner who has no exorbitant ideas or expectations as to the price of this land. His only reason for selling the farm is that he is centering his interests in Nicholasville and he has not instructed us to "shoot if we can get his price," but he has employed us to SELL and instructed us to SELL IT. Consequently, we think that this is the best opportunity presented this year for the man who wishes to get land at a reasonable price and at the same time obtain soil that is as productive as any in Kentucky. The neighborhood is excellent, and the property is close to a number of good markets.

Get in on the ground floor and ride the prosperity wave that is sweeping this grand United States of America, the greatest country on earth. The man who bets against the future of AMERICA will lose, the man who bets on its future is BOUND TO WIN!

This farm has been well taken care of, and to show you that Mr. Dietrich has confidence in the dividend earning power and in the character of the soil, he will give you FIVE LONG YEARS is which to pay for it.

So be on hand promptly Friday morning of the 7th, and do not lose an opportunity that may never be presented to you again.

### PURE SORGHUM SEED BY ROGUEING PLATS

Go Over Field and Carefully Remove Off-Type Plants.

Work Can Be Done Easily by Man on Foot With Dwarf Varieties, While With Taller Sorts It Is Practical to Use Horse.

(Prepared by the United States Depart-ment of Agriculture.)

In order to obtain pure sorghum seed it is usually necessary to go over the field carefully after it has headed out and remove the regues or off-type plants. Every plant which does not conform to the type which is desired should be cut down, or, better, pulled up so that there will be no danger of the production of seed from tillers produced by the rogue.

In dwarf varieties the rogueing can be done easily by a man on foot, but in the taller growing sorts it is most practical to ride through the figid on horseback so that the workers can se

It is not profitable to rogue field:

which are intended for the production of grain or forage, but in the produing of seed, either for home planting or the market, careful rougeing gives returns both in dollars and cents and in the satisfaction of growing pure seed. Sorghums being open-pollinated are subject to almost endless hybridization if stray plants of other varieties are allowed to mature in the field. This intermixing of varieties results in lack of uniformity in ripening as well as in the size of the plants, thus causing difficulty in harvesting and marketing the crop. The use of pure seed varieties which are known to be adapted to the farmers' climatic conditions will be rewarded in bigger and better crops.

### EXAMINE LAND FOR ALFALFA

Frequent Borings Should Be Made With Auger to Determine Character of the Soil.

In examining a tract of land for al-falfa frequent borings should be made with a soil auger to determine the character of the soil and subsoil as well as the drainage conditions. This instrument asually will be of greater value-ein determining the adaptability of a particular tract to alfalfa than a chemical analysis of the soil. A common 14-inch auger with the shank lengthened and a suitable crossbar for handle is practical for this use

### FULL-CROP YIELD OBTAINED

Sufficient Fertilization, Pure Seed an Careful Cultivation Are of Importance.

There are three agents that are neglected, but through which the full-crop yield can be ob-tained. They are, sufficient fertilization, pure seed and careful cultivation. The proper use of fertilizer will make the stalks and stems stronger and thus more impervious to the attacks of vegetable parasites or the spittel of insects. It will give weight, color and size to the fruit and materially hasten maturity.

### GOOD STRAWBERRY TILLAGE

Always Run Cultivator or Rake Through Patch Same Way to Permit Runners to Set.

Her face brightened as the Imposing man entered the big, deserted room; she had been tongue-tied before the irreproachable evening dress of the socially prominent. This man, smilingly ill at ease, seemed some way or other to be in her own predica-

"You are a guest, are you not?" he asked abruptly.

Abbie Ann blushed at his appraising glance toward her simple white frock, and nodded.

"You don't care to dance?" He re-garded her curiously.

Abble Ann shook her head. "So few people want me for a part-ner," she confessed, "that I'd rather not force them to ask me."

The man grinned; it was a good-na-tured grin. He drew forth a chair and seated himself at her side.

"My name is Perkins," he announced. Abbie Ann bowed. Instinctively she

liked this big, plain man with the humorous eyes. "Mine is Dorier," she responded, and

"Not," he began—
"Yes," she said, "I am related to

Eloise and Josephine, I'm their sister, and I neither paint nor play-"
It was the man's turn to interrupt.

"All right," he said, "glad to hear Then I shan't be called upon to listen while you perform, or compli-ment a painting which I don't in the least understand."

For a moment of understanding sympathy the two looked into each other's eyes and laughed.
"You mustn't think that I don't

preciate my sisters," Abble Ann has-tened to add. "It's just because I'm such a nonentity myself that I de-spise comparison. The only reason that people bear with me at all is cause I'm in the family."
"Reflected glory!" laughed the man.

"and have you no special desire in your own direction?"

"I'd love," she said, "to have lots and lots of money to spend."

"Well," he thoughtfully reflected, "the wise expenditure of money is an art in itself. Now, suppose," he leaned toward her amusedly, "you were pos-sessed of lots of money; how yould you dispose of it?"

Abble Ann spoke eagerly, shyness and constraint forgotten.

"I'd build a home for poor convalescents," she said, "those you know who must leave hospitals and have no money for further care. And I'd have a big country summer place for ailing children of the poor, and—O!—there are so many splendid things that one might do with money.

"Mr. Perkins!" laughingly called the hostess. "Why did you not announce your presence? As a guest of honor your behavior is inexcusable."

The big man arose.
"Apologies!" he said. "I came here
direct from the station, my train being delayed. I did not wish to break in
on your frivolities."

Confusedly, Abbie Ann retired to her corner. The proud hostess drew forth the noted Josephine and Eloise for presentation. Eloise sought her out later.

"How in the world?" she asked, "did you become acquainted with Tyron Perkins, the multi-millionaire?" Abbie Ann's eyes widened, "You don't mean," she asked incred-ulously, "that this Mr. Perkins is the millionaire, you, and Josephine have

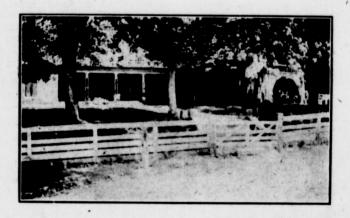

Again she liked the humorous light in his eyes. But as she stood looking up at him, the humor changed to tenderness.

WHY is it that more and more smokers (millions now) are getting together with Chesterfields?

First of all, fine tobaccos. Our own buyers in the Orient send us the pick of the finest Turkish varieties (Xanthi, Cavalla, Smyrna and Samsoun). We blend these by a secret method with specially choice Domestic leaf.

This method brings out new qualities of flavor—a smoothness, a richness, a mellow-ness that go right to the spot. That's the reason Chesterfields satisfy.

War Council Tells How Millions Contributed by Public Were Used For Relief.

BIG TASK IS DESCRIBED

In Twenty Months \$154,000,000 Was Spent Overseas and \$119,000,000, in the United States

Washington, (Special.)-Through & complete report of the work of the American Red Cross in the war by Chairman Henry P. Davison, on behalf of the war council, the organization on the eve of its annual enroll-ment of members during the Third Red Cross Roll Call, November 2 to 11, has rendered an accounting of the any millions given it by the American people to help our fighting men and our allies. The statement is, in art, as follows:

The war council of the American Red Cross is now prepared to make a complete accounting to the American people of money contributed and ex-pended, as well as the work done by he American Red Cross during the period in which the war council was in control of its affairs. The war council was appointed May 19, 1919, and went out of existence February 28, 1919.

'It was the practice of the war council to give complete publicity to its policies and finances, but it is only now that a picture of the war period as a whole can be presented. It is the feeling of the war council that a report in this summarized form should e made directly to the public which provided the money and gave the ef-fort which made the American Red ross a success.

"A statement of the American Red Cross effort and finances since the war council relinquished its control will be made to the public through the executive committee, and it is im-portant, therefore, that the fact that this report covers the period only until March 1, should be carefully noted."

Following are certain round figures copering American Red Cross partici-pation in the war, as revealed by the var council's report :

Rev. J. R. Black, Publicity Director, Describes Progress In the Blue Grass State To Date.

REV. J. R. BLACK

By REV. J. R. BLACK Kentucky Publicity Director

The organization of Southern Baptists for the raising of 75 million dollars for all phases of work fostered by this people has now been pushed out until all of the 18 Southern states have followed the suggested organization Kentucky is not behind in the number for in the 76 district associations there are now 70 associational organizers 74 associational publicity men and 66 W. M. U. organizers. It is the purpose to have one of each of these in each association and then in the local church there will be an organizer in addition to the pastor, who is the di rector, a W. M. U. organizer and three boosters, who will do the publicity The organization has also ex

work. The organization has also extended until practically all of the 1.850 Baptist churches in Kentucky have these officers in charge and every effort is now being made to bring information and prepare for the great drive which will be made in one week's time, the date of which is November 30th to December 7th.

The state organization is in charge of Rev. O. E. Bryan, Corresponding Secretary of Missions, Louisville, Ky. Prof. John L. Hill, of Georgetown College, State Organizer and Director, Georgetown, Ky., chd Rev. J. R. Black, Publicity Director, Louisville, Ky. At the general office in Louisville the most encouraging news is being continually received. The people all over the state are so enthusiastic about the campaign that from every quarter responses: re now coming and some churches cannot wait for the

about the campaign that from every quarter responses re now coming and some churches cannot wait for the drive to be made but are now pledging and giving more than was asked of them. The last message received was from Poplar Grove church in Graves county, which was asked for \$5,000, and after a sermon by the pastor pledges were made and the amount was more than raised. This has been done in many other places. 155,000 done in many other places.

The information that is coming to the Baptists is probably one of the greatest benefits that is being derived from the campaign. A pastor in a mountainous association who had been preaching for over thirty years and had always maintained a position against the support of the ministry, and who did not believe in missions, stated at the meeting of the district association which he attended that he had learned more in this meeting of what God intended he should do to send the gospel to the other side, as well as to his neighbor, than in all his life before. A layman who had never given to missions, or much for any object of the church, said he wanted to give \$200 a year for the five years of the campaign. A railroad man upon hearing the call gave at once a fifty dollar Victory bond and said this was not to be counted as his part when the drive was made. From these to a great gift of \$30,000 by Mr. George E. Hays of Loui wille the Baptist people are being reached and are enthusiastic association which he attended that he being reached and are enthusiastic have a part in the great undertak-

to have a part in the great undertaking.

The one day in October that will be emphasized above all other days is the fourth Sunday. October 26th, which is the day set aside and known as the day for "Calling Out the Called." Kentucky expects to have at least 300 young people to dedicate their lives for special religious work on this day. Ministers, pastors, Sunday School workers, pastors' assistants, and B. Y. P. U. workers will hear the call for these different lines of service on this day.

One of the most hopeful signs that the Baptists have is the fact that the Southern Baptist Theological Seminary had on October 1st the largest opening of any in the past three years. The W. M. U. Training School at Louisville had 123 young ladies enrolled for special training. Everywhere the campaign has gotten first place in the thinking of the Baptists are going forward to do a little of what they have been waiting many years to do.

Losses to the winter wheat crop from Hessian fly have been rather wide spread. Losses are reported in the Shenandoah and Cumberland valleys. Straw-fallen wheat due to this of clover and forage grasse ause was commonly observed in these regions where the percentage of infestation by the Hessian fly has very naterially increased this year. No Remedy for Pest.

Growers of winter wheat should put into practice at once measures advocated by the United States department of agriculture to avoid losses to the 1920 crop by the Hessian fly. Generally the only provision for ventilation is by trapdoors in the floor through which the filling of the bins is completed. Occasionally a ventilator is found in

These houses, although practical in Maine, will never supersede the dugout pit or storage cellar now used in the middle and far western states. Each of these types of storage has distinctive features which peculiarly adapt it to its own environment, but do not necessarily preclude use in

other localities. The artificially refrigerated potato storage house is confined practically to the storage of northern grown seed potatoes held in cold storage for second crop planting in the South. It is thought that community cold-storage plants of this type could be profitably used by the southern truck growers.

### PREVENT WASTAGE ON FARMS

Among Other Things There May Be Spots That Wash, That Overflow or Are Poorly Drained

Look out for the waste places on the farm. Some of these may be on fields that wash; some may be on the overflowed fields; some, the paorly drained places. The barnyard ma-nure may be wasting; the implements being left out in the weather to de teriorate. The waste may be in trying to do with the hands what should be done with implements and ma-chines. Look for wasted energy and wasted opportunity.

### TOAD IS FRIEND OF FARMER

They Are Useful Guardians of Groving Plants and Vegetables— Devour Many Insects.

Despite its general unpopularity, the toad is a harmless, interesting and valuable creature. While the toad is often thought to be poisonous, the fluid which comes from a gland behind its eye is not harmful to human beings unless it comes in contact with a tender part of the body, such as the eye or lip. Toads change their skin periedically by splitting the old skin down the back, peeling it off like a jersey and swallowing it. They are also use ful guardians of growing plants and vegetables since they eat all sorts of nsects. Their chief weapon against their enemy, the snake, is their ability to inflate their bodies to twice the normal size, thus making it difficult for snakes to swallow them

### ATTENTION TO SANDY SOILS

Very Deficient in Organic Matter and Are Subject to Blowing—Straw Covering Helps

Sandy soils are very deficient in organic matter and are subject quite seriously to blowing. If such fields are covered with straw it will prevent this damage to a great extent. It will also add considerable to the humus content by increasing the organic matter in the soil, and the soil will hold a much larger per cent of moisture. Consequently it will be far supe rior to a soil that is deficient organic matter. is very practical. The straw spreader

### "LAND HUNGER IS STILL UNSATISFIED."

But few farms can now be purchased either privately or at auction. This may be your last opportunity. Swinebroad is the only man in the business who has offered a series of sales in the same neighborhood, so as to give buyers an opportunity to attend and look over the different farms at the least expense.

I have refused to offer at auction almost as many farms as I have sold. Why? Because I know land values and will not offer at public sale any farm unless the owner is willing to absolutely "turn loose" or "turn loose" at a price which will justify the buyers to bid. This is one of the reasons Swinebroad always sells and the bidders fix the price. These farms are lo cated in the very best belt in Mercer county.

On the Burgin and Shakertown Pike, 3 miles from Burgin, 2 miles from Shakertown. This is part of what is known as the "Wilder Farm" recently purchased by J. A. Conn. Mr. Conn has decided to keep his home in Garrard County, there fore, this farm is for sale to the "High Dollar." Land is level very fertile and in high state of cultivation. 25 acres sown to rye, 15 acres in corn and tobacco this year, ready to plow next year. Balance of farm in blue grass. Right on the pike. Beautiful yard and frontage to pike. Large shade trees. Farm is divided into six fields, well fenced and well watered.

IMPROVEMENTS: 7 room bungalow, with two porches, stock and tobacco barn, garage, tenant house, all necessary out buildings. Cistern at the house and also at the barn. It is hard to find a little tract like this just as good or just as desirable. Remember, we are going to sell it, 84 ACRES IN THIS LITTLE FARM. Just the size farm you have been looking for. Will be sold in one tract. Be on hand promptly at 10 o'clock, Friday, November 7th, as it won't take us long to sell this one. THIS IS THE DAY OF ONE OF THE DOUBLE HEADERS.

IMPROVEMENTS: 8 room cottage, 3 porches, stock barn, tobacco barn and all out buildings. Well fenced and everlasting water. One of the best springs in the County.

If you want a farm that will pay for itself this is the farm to buy. There will be no knockers on this farm as everybody says that it is a good one.

After the sale of this 102 acres for to the Gillispie farm near-by. We will have a good dinner at the Gillispie Farm.

Just after the sale of the Jones Farm'above.

We will sell for A. Gillispie 142 acres of high class land, well improved and a beautiful place to live. Right on the Shakertown and Burgin pike, right at the town of Shakertown. In passing everybody says "What a pretty place". "Wonder who lives there"? And we wonder how we persuaded Mr. Gillispie to sell. But some buyer will get the benefit of our persuading Mr. Gillispie to sell this dandy little farm. It has a beautiful frontage on the pike, an 8 room dwelling, 2 porches, equipped with electric lights, tobacco barn, stock barn, double crib, 2 tenant houses. 75 acres in grass, 20 acres in wheat, balance for corn. Splendidly watered by wells, cistern and pond. Remember, we are selling land in the best belt in Mer-

Don't fail to look this one over.

At the same time Mr. Gillispie will sell a lot of stock and farming implements, consisting in part as follows: Good work horse, pair of 4 year old mare mules, pair of 5 year old mare mules, yearling filly, good milk cow, 3 fat heifers, yearling wagon, binder, mowing machine, tobacco setter, corn planter, feed cutter, plows, harrows, harness, etc.

Liberal Terms.

Remember the double header on this date.

The Jones Farm above sells first and then we sell the Gillispie Farm. Meet us at the Jones Farm at 10 o'clock.

### A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Head-ache, Malaria, Chills, Etc.

Ringgold, Ga.— Mrs. Chas. Gaston, of this place, writes: "a am a user of Thedford's Black-Draught: in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Thedford's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, billousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Thedford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleaning the bowels of imparities. Try, it, lasist on Thedford's the original and genuine. E 79

### **Bilious? Take NR** Tonight

Bilious attacks, constipation, sick headaches, etc., are in the great majority of cases due to digestive trouble and no reasonable person can expect to obtain real or lasting benefit until the cause is corrected.

Nature's Remedy (NR Tablets) is a vegetable compound that acts on the stomach, liver, bowels and kidneys, the purpose being to bring about healthy and harmonious action of all the organs of digestion and elimination. It acts promptly and thoroughly, yet so mildly and gently that there is never the slightest griping or discomfort.

comfort.
But that is not all. Nature's Remedy (NR Tablets) have a beneficial effect upon the entire body. By improving the process of digestion und assimilation, the nourishment is derived from food, the blood quality is enriched, vitality is increased and the whole system strengthened.
